W 000	INITIAL COMMENTS	W 000			
W 120	<p>A recertification survey was conducted from June 7, 2007 thru June 8, 2007. The survey was initiated using the fundamental survey process. A random sample of two clients was selected from a resident population of four females with various disabilities. The findings of the survey were based on observations, interviews with clients and staff in the home and two day programs, as well as a review of client and administrative records, including incident reports.</p> <p>463.410(d)(3) SERVICES PROVIDED WITH OUTSIDE SOURCES</p> <p>The facility must assure that outside services meet the needs of each client.</p> <p>This STANDARD is not met as evidenced by: Based on observations, staff interview, and record review, the facility failed to effectively monitor each client's day program to assure that the needs were met for one of two clients in the sample. (Client #2)</p> <p>The finding includes:</p> <p>Observation during the lunch mealtime on June 7, 2007 at approximately 12:30 PM revealed that Client #2 was served her prescribed diet on a sectioned paper plate placed on an elevated platform. Interview with the day program staff acknowledged that Client #2 used a sectioned paper plate instead of a divided plate during mealtime. Further interview revealed that the day program did not have a current mealtime protocol from the facility. Review of the Individual Support Plan (ISP) dated November 23, 2006 on June 8, 2007 at approximately 12:30 PM revealed that it</p>	W 120	<p>It is the Policy of St. Johns Community Services to assure that outside services meet the needs of each resident. The Day Program has been provided a divided high-sided plate for Sample # 2.</p> <p>In the future, the home will assure that all outside services meet the needs of all residents in a timely manner.</p> <p>The Day Program has been provided a copy of Mealtime Protocol for Sample # 2. The OT has recommended and the Day Program has a high sided divided Plate for Sample # 2</p>	6/25/07

W 124	Continued From page 2 2006, to address behaviors associated with physical aggression, screaming, yelling and spitting. Interview with the Qualified Mental Retardation Professional (QMRP) on June 7, 2007 at approximately 10:00AM revealed that Client #2 did not have a legal guardian. The review of Client #2's Psychological Assessment dated November 10, 2006 on June 8, 2007 at approximately 2:40PM indicated that she does not evidence the capacity to make independent decisions on her behalf regarding her habilitation planning, placement, treatment, financial and medical matters and can not give informed consent. There was no documented evidence that the facility informed Client #2 or a legally-authorized representative, as appropriate, of the health benefits and risks of treatment associated with the use of his psychotropic medications and corresponding BSP. Additionally, the facility failed to provide evidence that substituted consent had been obtained from a legally recognized individual or entity. 2. Interview with the QMRP and review of a medical consult dated September 25, 2006 on June 8, 2007 at approximately 2:50PM revealed that Client #2 had a colonoscopy performed on September 25, 2006. There was no documented evidence that the facility informed Client #2 or a legally-authorized representative, as appropriate, of the health benefits and risks of treatment associated with the colonoscopy examination. Additionally, the facility failed to provide evidence that substituted consent had been obtained from a legally recognized individual or entity.	W 124			
W 125	483.420(a)(3) PROTECTION OF CLIENTS RIGHTS The facility must ensure the rights of all clients.	W 125	2. Sample # 2 Sister did signed the consent for the Colonoscopy. Please find attaché a copy for your review.

Observation of the morning medication administration on June 7, 2007 at approximately 7:40AM, revealed that Client #2 received Glucophage 500 mg twice a day by mouth. Interview with the nursing staff on June 7, 2007 at approximately 7:50AM revealed that Client #2 was administered the medication for glucose management and that finger sticks were performed in the AM and PM on alternate days. Review of an endocrine consult dated December 7, 2006 on June 8, 2007 at approximately 4:12PM revealed a recommendation to vary fingersticks sometimes in AM and sometimes in PM. Review of the physicians orders dated June 1, 2007 on June 7, 2007 at approximately 10:55 AM revealed that the medications were prescribed for glucose management. There was no documented evidence that finger sticks were ordered to monitor the client's glucose levels.</p> <p>3. The facility failed to order the diet for Client #2 that was recommended by the Speech/Language Pathologist as evidenced by:</p> <p>Breakfast observation on June 7, 2007 at approximately 7:40 AM revealed that Client #2 was eating soft scrambled eggs, muffin and oat flakes cereal softened with 1% milk, apple juice and water in the appropriate amounts. Interview with the direct care staff on June 7, 2007 at approximately 7:45AM revealed that Client #2 was on a mechanical soft diet. Review of the</p>	W 322	<p>2. W 322	Continued From page 23 Primary Care Physician's orders dated June 1, 2007 on June 8, 2007 at approximately 12:10 PM revealed that Client #2 was on a 1500 calorie diabetic, low sodium diet. Review of the Speech-Language Evaluation dated April 14, 2007 on June 8, 2007 at approximately 1:00 PM revealed a recommendation for a mechanical soft diet with thin liquids for Client #2. There was no evidence that a mechanical soft diet with thin liquids was ordered for the client. 3. The facility failed to order the diet for Client #1 that was recommended by the nutritionist as evidenced by: Breakfast observation on June 7, 2007 at approximately 7:05 AM revealed that Client #1 was given physical assistance to hold a built-up spoon to eat a pureed diet of scrambled eggs, muffins oat flakes cereal with 1% milk from a scoop plate that was on an elevated tray. Apple juice and water was served from a spout cup. Review of the Primary Care Physician's orders dated June 1, 2007 on June 8, 2007 at approximately 1:10 PM revealed that Client #2 was prescribed Lipitor 10 mg every evening by mouth for hypercholesterolemia. Further review of the Primary Care Physician's orders dated June 1, 2007 on June 8, 2007 at approximately 1:12 PM revealed that Client #1 was on a pureed diet with high calorie snacks between meals. Review of the Nutritional Assessment dated June 27, 2006 on June 8, 2007 at approximately 1:15 PM revealed a recommendation to add low cholesterol to the diet order. There was no evidence that a low cholesterol diet was ordered for the client.	W 322	4. A copy of Sample # 1 PMOF, which includes an order for low cholesterol diet has been attached for review	6/8/07
